Master's in Financial and Banking Sciences

Program Overview

The Master's program in Financial and Banking Sciences grants a degree that provides promising employment opportunities for our graduates in related business fields. The program aims to theoretically and methodically prepare students in the banking and financial sector, equipping them with the skills and techniques necessary to compete in the job market.

Program Objectives

- Prepare students for critical thinking and finding new ways to improve banking services.
- Provide a high-quality financial education program that enables graduates to become contributors in the financial community.
- Raise awareness of ethical financial issues and social responsibilities.

Program Importance

This program distinguishes itself by preparing graduates with distinguished scientific and practical qualifications in the field of finance and banking sciences. It offers outstanding academic experiences that support and encourage scientific research and foster interactive partnerships with public and private institutions and the local community. This contributes to serving the nation and enhancing local and regional economies.

Targeted Groups and Accepted Majors

This program targets students holding a bachelor's degree in Finance and Banking Sciences, Accounting, Business Administration, General Management, Economics, Marketing, Engineering, Computer Science, Mathematics, and Statistics.

Job Areas

Banking and financial sectors.

Credit Hours and Tuition Fees

Students are required to study complementary courses as determined by the Graduate Studies Committee in the department.

- For the Thesis Track: Students must complete a minimum of (24) credit hours at the (600) level, successfully pass them, and submit a thesis contributing original knowledge, for which (9) credit hours are allocated, along with a successful defense examination.
- For the Comprehensive Exam Track: Students must complete a minimum of (33) credit hours at the (600) level, successfully pass them and pass the comprehensive exam.
- Tuition fees per credit hour are 70 Jordanian Dinars for Jordanian students, and 225 USD for international students.

Study Plan Overview

The curriculum of the Master's program in Financial and Banking Sciences at Yarmouk University includes a range of mandatory and elective courses aimed at providing students with fundamental and advanced knowledge in financial management, investment management, financial risks, financial engineering, financial markets, and econometrics. Additionally, there is a systematic study of research methodologies and standard economics.

Students can opt for either the Thesis track, conducting original research in the field, or the Comprehensive track, which involves an extensive study of core and elective courses along with passing a comprehensive examination at the end of the program. The program offers extensive opportunities for specialization in advanced areas such as financial planning and forecasting, international banking and financial markets, contemporary financial issues, preparing students for various career opportunities in diverse banking and financial sectors.
