

Yarmouk University

**Faculty of  
Physical Education  
and Sport Sciences**

## Master's in Sports Science/ Movement Science

### Program Overview

Through the master's program offered, whether in the thesis track or the comprehensive track in the department, the Department of Sports Sciences seeks to nourish society and the labor market with qualified graduates who possess the necessary ability and knowledge to be creative and innovative in the field of sports, whether educational or training, and to create effective sports initiatives, relying on a distinguished constellation of body members. Teaching facilities, and the abundance of facilities, playgrounds, and gymnasiums, in addition to a closed semi-Olympic swimming pool with high specifications, and laboratories equipped with the latest safe and appropriate means, in order to develop and develop the skills and experiences of its graduates from all aspects and at all levels in the Hashemite Kingdom of Jordan, in effective coordination with various relevant bodies and ministries. Such as the Ministry of Youth, the Supreme Council for Youth, the Olympic Committee, sports federations and organizations, as well as the cooperation and

coordination of faculty members in the department with faculties and departments of physical education in other Jordanian universities. The college seeks to achieve its mission and future vision by keeping pace with the developments of the modern era and its requirements by qualifying distinguished graduates in teaching the specialty of physical education who are able to train group and individual sports teams, whether from the physical, health, or social and psychological aspects, in order to achieve excellence in scientific research and scientific activities, and qualify them to serve the community. And its needs, to cover the labor market's needs for qualified and trained competencies.

## **Program Objectives**

- Preparing and qualifying sports graduates who have competence and scientific and practical ability in the sports field.
- Developing the sports movement in national institutions, whether they are educational schools, institutes, universities, or clubs, federations, and youth centers.
- Providing the local market with specialized, qualified, creative, productive and active sports personnel locally and regionally.
- Qualifying graduates distinguished by their creativity and leadership ability.

## **Program Importance**

1. Preparing the student for scientific research and teaching in sports fields.
2. Developing the student's abilities to describe, evaluate, analyze and interpret various motor phenomena related to various physical activities for the sake of education, maintaining health and developing physical and sporting achievement.
3. Providing local, Arab and regional institutions with qualified cadres who hold a master's degree in sports sciences for university teaching and scientific research and to assume senior leadership positions locally, Arab and regionally, and to fill the great shortage and increase the demand in this field.
4. Developing the student's abilities in the theoretical and practical fields through the use of devices, tools and equipment in the field of applying sports programs.
5. Improving teaching and learning through scientific research and practical application in various fields and creating a spirit of creativity and challenge to bridge the gap between theory and practice in the fields of physical education.

6. Attracting Arab students to enroll in this program in light of the good and distinguished academic reputation enjoyed by the College of Physical Education and Sports Sciences in particular and Yarmouk University in general.
